

## BUTTERFLY BOARD GAME

### HOW TO PLAY BUTTERFLY:

- **STEP 1:** The players place their nine counters each on the game board, leaving the centre space empty.
- **STEP 2:** The players take turns moving one of their counters into an empty place.
- **STEP 3:** A player may jump an opponent's counter if there is an empty space on the opposite side of it. The player claims their opponent's counter. The player may continue moving or jumping with the same counter until he or she is blocked.
- **STEP 4:** A player who has more than one possible jump may choose which jump to take. **The player who captures all of their opponent's counters is the winner.**
