

# HOW TO MAKE A THANKSGIVING SPINNER

1

On the bottom bit draw or write six things you are thankful for. Then colour or decorate both pieces.

2

Cut out the shapes and line them up, making sure you can see your designs in the gap on the top piece.

3

Push a split pin through the middle of both pieces to join them together. If you don't have a pin you could try hanging it on some string.

4

Spin the top around to pick something to give thanks for. Next time you pray, use your spinner to help you and your family to pray.
